

Technical Reports
Energy Systems Engineering
IIT Bombay

1. **Objective:** Objective of the *Technical Reports* is to give students an experience of peer reviewed journal publication.
2. **Scope:** *Technical Reports* will be a broad-based Internet and hard copy (limited number) archive that will carry significant research results (including research articles and R&D notes) in all areas of Energy Systems Engineering. Soft copies will be kept in the Energy Systems web page (<http://www.iitb.ac.in/~es>) and hard copies will be distributed to Central Library, ESE Library, and one copy to each corresponding author whose report has been accepted. One hard copy and two soft copies in CD will be kept in the archive.
3. **Editor(s):** Prof. A.M. Kulkarni and Prof. S. Bandyopadhyay.
4. **Submission:** This is compulsory for every second year M.Tech student of Energy Systems Engineering. Associated faculty, alumni, and Ph.D. students can also submit reports. Every second year M.Tech student has to submit a technical report, based on his/her M.Tech project. Last date of submission for the current batch is proposed to be April 30, 2004. Students should first submit two hard copies of their manuscript. Original submission should have at least one-and-half spacing. Student, with consultation with their guide(s), should incorporate the suggestions made by the referees and prepare the final manuscript. Final submission should be in the camera-ready form following the format prepared. Final report should be limited to 10 pages inclusive of everything. Page number should be put in consultation with the Editor(s). Both hard copy and soft copy (as pdf file) of the final accepted report has to be submitted.
5. **Role of Guide(s):** All these technical reports must be coauthored with their respective guide(s). Guide will be the corresponding author. Guide(s) should take the responsibility for the presentation style, language, mistakes and errors in the manuscript.
6. **Number:** Every report received by the editorial office will be given a manuscript number with date of receipt (e.g, MS#2004/001 on 30/04/2004).
7. **Reviewing:** Editor(s) will distribute each technical report to two referees (they may be from inside and/or outside IIT-B) for review and evaluation of the report. Referees should provide their critical comments about the quality of the report with possible extra work required to improve the quality of the manuscript. Depending on the comments of the referees, Editor(s) may or may not accept it for preserving in the *Technical Reports* archive. Only accepted papers will be given a *Technical Report Number* (e.g., TR/2004/001). Information regarding date of receipt and acceptance of the report will be their in the final report.

8. **Journal Publication: *Technical Reports*** is not copyrighted. It is expected that the authors will publish the same in any national/international journal. However, as *Technical Reports* is online publication, authors are, therefore, requested not to publish it in entirely similar form. In case of similar publication, it must be communicated to the Editor(s).
